

DealerTrack® *JOB POSTING*

Software Engineer/Java, Intermediate Groton, CT and Amherst, NH

Responsibilities:

Support the design and development of new product offerings, new state product introductions, and the design and development of enhancements and extensions to existing systems.

Work within standardized database and object-oriented designs, development frameworks, and testing environments.

Design and implement core business applications using relational database products, development tools, and design mechanisms.

Responsible for full lifecycle systems development, including system analysis, specification, design, programming, and pre-certification testing.

Respond to help desk tickets requiring engineering support for production products.

Work in a team environment, participating in development and implementation of multi-tiered, client/server applications.

Build a strong working knowledge of products' architecture, programming languages, database and file structures, and infrastructure (i.e., startup, shutdown, and communication scripts).

Qualifications (education, prior work experience, specialized skills and knowledge):

Bachelor of Science degree in Computer Science or Information Technology and 4 to 6 years of technical experience in software product design or support. In lieu of degree, at least 2 additional years of related on-the-job experience at the intermediate level are required.

Proficiency with Java programming language and frameworks, Web technologies (XML, HTML, JSP, etc.), C, VB, and both the Windows and UNIX operating system environments.

Proficiency with programming Oracle and sequence databases.

Ability to work independently and make appropriate level design/development decisions.

Must be a consistent performer, displaying a high proficiency in assignments.

Ability to consistently deliver high-quality work that meets or beats scheduled delivery requirements.

Ability to lead simple product enhancements/initiatives.

Adaptability to changing technology requirements.

Some travel may be required.
